

BATTEREASE

SUSTAINABILITY PROGRAM

PEOPLE + PLANET + BUSINESS

BatterEASE makes it easy for your business to monitor and achieve your goals to do right by your customers, community, and environment.

Our Sustainability Program is backed by measurable, data-driven impact metrics.

Our innovative recycling process protects the environment while creating opportunities for impact in underserved populations.

Show your community and your customers what industry leaders do to create meaningful impact and promote corporate sustainability.

LET'S CREATE SUSTAINABLE IMPACT TOGETHER

1 DISPOSE OF ELECTRONICS IN BINS

- Clients receive a collection bin to collect all electronic waste.

2 FULL BINS PICKED UP

- A certified partner transports your waste, recycles it properly, and separates Li-ions from the waste stream.

3 BATTEREASE RECYCLING INNOVATION

- BatterEASE tests and qualifies Li-ion batteries for reuse reclaiming their energy to give your waste a second life.

4 CREATE SOCIAL & ENVIRONMENTAL IMPACT

- BatterEASE uses qualified batteries to create affordable clean energy systems for disadvantaged communities.
- Waste mitigation & impact data reports are delivered based on your collection frequency.
